be the Declaration of Independence, the Surrender of General Burgoyne and his army in 1777, and that of General Cornwallis, in 1781, and General Washington's returning his commission to Congress, after the peace.

It is impossible that any historical subjects can take deeper hold of the feelings of the people of this country than these. The declaration of independence may be fairly considered as one of the most sublime transactions that is recorded in the annals of nations. Its effects have not only been realized here, but to a great extent through the civilized world. It was the foundation of our national existence, and the edifice was after an anxious and desperate struggle, completed in a manner that reflects the highest honor on the character of the illustrious patriots by whom it was planned and achieved. No American citizen who reflects on what has passed, and what is now passing, who compares a colonial with a sovereign and independent state, can fail to feel a strong disposition to possess this splendid patriotic work, not only for his own gratification, but for the purpose of transmitting to his posterity, the likeness of those great men, who fearlessly set their names to an instrument which was to be the basis of their country's future honor, dignity, prosperity, and glory. We cannot but hope, that the artist, who was himself actively concerned in the military operation that preceded the great event which his pencil is now engaged in commemorating, may be handsomely rewarded for this exertion of his distinguished genius and talents, by liberal subscriptions to his proposals.

Fan-Sash Making.
METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expense in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.
Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as if in town.

Valuable Land for Sale.
THE subscriber wishes to sell two valuable Tracts of Land—one situated in the upper part of Fairfax county, adjoining the lands of Samuel G. Griffith, and bounded north by the Potomac river, containing 700 acres, about one half in wood; of the cleared land a considerable proportion is first river bottom, equal in fertility to any in Virginia; the upland is well situated for farming and of a good quality. There is also a mill-seat on the Tract of considerable value. This farm is worth the attention of any person wishing to engage in the farming business, as it certainly is not exceeded by any in the county (perhaps state) as a farm of profit, and may be had on reasonable terms. Mr. John Binkler, who resides near the land, will show it, and Mr. Wm. McCarty of Loudoun county, or Mr. John W. Brough of Georgetown, p. c. will make known the terms. If this Tract is not disposed of before the 2nd of MARCH, it will then be exposed to PUBLIC SALE, at Wiley's Tavern, on the road leading from Alexandria to Leesburg.
The other Tract contains 1000 acres, and is the upper and most valuable part of the Tract I live on. It is situated ten miles below Alexandria, and bounded N. by Accotink creek. This Tract will be divided to suit purchasers, if found necessary. Persons wishing to purchase will apply to the subscriber living at Cedar Grove, who will show the land and make known the terms.

Sully for Sale.
THIS Estate, situated in the county of Fairfax, twenty two miles from Alexandria, and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River Turpentine passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The soil which was originally excellent, has for some years past had the advantage of improving husbandry, Plaster of Paris acting with powerful and immediate effect on all grasses and grains. The fields present a good surface for cultivation; and these now untillaged are covered with red clover. The orchards are very large and thrifty; the collection of table fruit is choice and various. The mansion is spacious and well constructed; the out-houses are conveniently situated, and the whole have been lately thoroughly repaired and painted. The farm horses, which are all nearly new, are expensive and excellent in their kind.
For a gentleman of leisure this would be a delightful residence; and a profitable estate for an active farmer. The title is indisputable, and perfectly unincumbered.
A number of well taught orderly young men, with good stocks and farming utensils of all kinds and the crops of the present year if desired, will be at the command of the purchaser.
Application may be made to the subscriber, living on the premises, next the post-office at Pleasant Valley, in Fairfax.

August Term 1817.
ON application to Charles county court by petition in writing of William Cox, of Charles county, for the benefit of the act of assembly for the relief of sundry insolvent debtors, passed at November session 1805, and the several supplements thereto, on the terms mentioned therein, a schedule of his property and a list of his creditors on oath, so far as he can ascertain them, being annexed to his petition, and the court being satisfied by competent testimony that the said William Cox has resided two years immediately preceding the time of his application in the state of Maryland, and being also satisfied that the said William Cox is in actual confinement for debt, and the said William Cox having entered into bond with sufficient security for his personal appearance in Charles county court, to answer such allegations as his creditors may make against him. It is therefore ordered and adjudged that the said William Cox be discharged from imprisonment, and that by causing a copy of this order to be inserted in some one of the newspapers edited in the district of Columbia once a week for two months successively before the third Monday of March next, he give notice to his creditors to appear before the said court, at Charles Town, in said county, on the said third Monday of March next, for the purpose of recommending a trustee for their benefit, and to show cause why the said William Cox should not have the benefit of the several insolvent laws as prayed. Given under my hand this sixth day of January, in the year of our Lord one thousand eight hundred and eighteen.

James Kennedy & Son,
RESPECTFULLY inform the public that they have just received from **LEE'S MEDICINE STORE,** No. 46, Maiden Lane, New-York, a fresh supply of the following valuable MEDICINES:

Hamilton's Worm-destroying Lozenges.
Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar title so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.
Worms which infest the human body are chiefly of four kinds, viz.—The Terebra or large round worm; the Ascarides or small tapeworm; the Cucurbitaria or short flat white worm; and lastly, the Tenia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fecid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given to every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of **BILIOUS AND MALARIAL FEVERS** is recommended **Hahn's ANTI-BILIOUS PILLS.**
THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual constiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
